## NEW-YORK TRIBUNE. NEW-YORK, PRIDAY, NOV. 9. THE STATE. WAND MAJORITIES ON STATE TICKET. Yates.... Tompkins Steuben... Queens. Rickland Orange Total, so far .... 18 210 Total, so far . The Counties remaining to be heard from are Otsego, Delaware and Cattaraugus-the two former usually Loco-Foco by 1,000 each or so, the

latter apt to be Whig by about 200. Delaware has now given a large majority for the Loco-Foco can didates who were placed on the Anti-Rent ticket and a smaller for the Whigs, also on that ticket, and it is quite probable that they are all elected. The Whig capdidates adopted by the Anti-Renters are WASHINGTON HUNT, Controller .

CHRISTOPHER MORGAN, Secretary of State ALVAH HUST, Treasurer, and HEZEKIAH C. SEYMOUR, State Engineer

These, we can scarcely doubt, are elected-WASHINGTON HUNT by a very decided majority Our Canal Commissioner, NELSON J. BEACH, though his opponent was on the Anti-Rent ticket is, we hope, elected. He has 254 majority in Al baoy County, though Samuel Stevens, Whig Attor ney General, a citizen of the County, is beaten 74 votes. He runs 300 shead of the Whig ticket in his own County, (Lewis,) still more in Oneida, and clear ahead also in Herkimer, whence he was most bitterly opposed at the Whig State Convention. We trust there are 'a few more left of the same sort in Jefferson, Montgomery and one of two other Counties, and that they will suffice.

Levi S. Chatfield, Loco Attorney General, Free born G. Jewett, Judge of Appeals, and Darius Clark, Inspector of Prisons, being on the Acti-Ren Ticket, are pretty certainly elected : Fred crick Follett, Canal Commissioner on the Loss and Anti-Rent tickets, may be, but we trust is not, as above stated. Still it is rather a tight fit, and we may not know for several days exactly who are

-The following vote of Albany County will in dicate the results to be expected in Rensselser, Columbia, Scoharie, Delaware, and a small portion of Greene, Ulster and Montgomery Counties where the Anti-Rent feeling is manifested :

Controller Hunt 6749 Lott.
Scenary of State Morgan 6672 Randall.
Attorney General Stevens 6046 Chatfield
Teasurer Hunt 6-81 Welch ..6:46 Charfield....612 ..6:81 Welch......54 Hunt. 6781 Welch 5541
Seymour 6534 Campbell 5620
Seach 6337 Follett 6683
Squire 6131 Clark 673
Jonnson 6268 McEwen 5854 Judicial vote not returned, but of course Jewett

Loco, beats Spencer, Whig, for Appeals, and Wright, Whig, beats Hogeboom, Loco, for Supreme Court; the Anti-Rent vote giving the majority in either case. There can, we think, be no doubt of Judge Wright's reflection, and so with the Judges renominated in other Districts except this and the Fourth District, where the horrible majority of St. Lawrence has probably beaten the venerable DANIEL CADY, and elected John Fine. We presume F. W. Hubbard, Loco, in elected in the Fifth District. We believe all the 17 Whig Senators claimed

our last are elected, and that Thomas Smith. Whig and Anti-Rent, is chosen from Delaware and Schobarie, instead of Sidney Tuttle, Loc.). is not certain that James R. Doolittle, Loce, is chosen from Allegany and Wyoming. The Senste is pretty sorely Whig.

The Evening Post last night had a table claiming eighteen Coalition Senators! To make up the number, it took Joseph Reynolds in the ome District, where he is beaten by Lev Dimmick in every county, and about 600 in the aggregate; Reuben Deye in Ulster and Greene re Schoonmaker, Whig, has some 500 majo rity; and Cyrus H. Kingsley in Onondaga, where

KINGS Co .- The majority for JOHN A. CROSS Whig Senator, over Philip S. Crooke, Loco, is 92: We hope to see a larger majority on the State ticket than we have set down for it in our table.

The vote is very close, and the result was not known at Greenport yesterday morning. We understand the Loco majority on the State ticket

'Trading on Berrowed Capital.' During the ten months just closed of the presen year, the Commerce of our City compares with

the same months of the preceding year as follows: Imported more than last year. Exported less than last year. This, according to Free Trade logic, is a most delightful summing up. We have so much more value in the Country than we should have had if we had bought only as much as we sold. Unlucki

ly for that logic, this value is not in the Countrywe have eaten and drank it up, worn it out, and otherwise consumed it, while our Labor which should have produced it has stood idle for want of employment. And, while the value has disappear ed, the obligation to pay for it remains. We have sent abroad our coin to the amount of several Millions in payment of commercial balances, and, werse still, our Public Stocks or promises to pay Millions on Millions more with next fifteen or twenty years, have been sent out by the ream, the mere interest thereon forming of itself a balance against us for years to come .-Prodent, careful men of business ' how long can

New-Jensey .- Both branches of the new Leislature are Whig, though the Whigs lost several Members of each by the Anti Monopoly and other local issues. There is, we believe, an Anti-Mo nopoly majority chosen, and a charter for a new Railroad scross the State will be granted-subject, of course, to the judgment of the Courts as to it

The Popular Vate is very close in our State-un quality, unexpectedly so. We believe there is, in the aggregate, a small Whig majority on the State Tickets, except as they are affected by the Anti Rent division, and that a majority of Whige doubt that the more important of the State Offices have been filled with Whigs, and that the sunstantial fruits of victory are with us. Still, the a drawn battle, while we pause to consider some of its developments for the present and its indica tions for the future.

The great feature of this contest is doubtles the affiliation of the pro-Savery or Hunker Deperacy with the Political About onists. But for this City and a few localities which sympa thize with it, the union would seem complete serve unmistakable signs of disgust and aver sion. Still, the union is a fact secommulated the Gay. Marcy who efficially recommended the passage of laws for their repression. Joshua Leavitt and Edwin Croswell are now fellow ' Demo crate above-board, while Henry B. Stanton, the Abolition lecturer, and Joseph Reynolds, who voted in Congress to stifle the Right of Petition

are brother candidates for Sepator in two adjoin ing Districts, supported by and laboring for the same party. Of the Fifteen Thousand Abolition vote with us to keep out Texas and the cousequent Extension of Slave Territory and Power probably Fourteen Thousand have now voted for would have been trumpeted from Baltimore t of the South through her 'natural allies ' This i

We have said nothing of this while the contest was proceeding, but now it is over we may express o conviction that the underputed success of the Co QUEENS .- The whole Whig ticket is defeated, alition last Tursday would have been a far se including Wessell S Smith for Assembly. It is erer blow to our old and formidable autagonists the Globe, we think, which informs its readers than its signal defeat. The leaders mus have seen this, but the candidates expectant for Sheriff, Clerk, &c. in the several Counties could not wait the ripening of events-they must be blest now, and a year to their eager spirits seemed an eternity. They forced a cosiltion, and some of them secured thereby the objects of their aspi rations, but involved their party in an entangle nent from which years will be required to extr cate it .- But perhaps they have given it at the same time an undesigned but effective impulse oward the path of Progress and Reform-to th path whence the incongruity of Democracy an Slavery is plainly perceived—if so, we will bles the result and forget the short eighted selfishness which ensured it.

STARTLING RISE IN THE MARKET -The Globe astonishes the world by gravely asserting that six Loo-Foco votes were sold in the Second Ward for six hundred dollars. We think our neighbor must be a buile mistaken; we never before heard of suph a sudden rise in property so wretchedly worthless. The ranged from five dollars down to a glass of rum, as the vants of the holders varied. If anybody in the Second Ward paid \$100 for a Loco Foco's vote, he was dread ally green; he could have bought nity for the same money properly invested in blue ruin.

A RARE SCENE AT THE EXCHANGE.-A STORTor and interesting interlude in the everlasting tradefin of the Merchants' Exchange occurred yesterday -A sale of stocks and sliver-ware belonging to the estate of Mr. Clarkson was on the tapis, and a full represen tation of the descendants of the name were present, each anxious to secure some relic of the olden time first emigrant of the name in 1691, and has remained in the family ever since. The stocks, of course, were modern invention, and comprised a value of about \$120,000 of National, State and Bank shares. These sold at average prices; but the silver brought almost its weight in gold. A castor weighing only 38 ounces was knocked down at \$330; some a nall speens at \$4 each , an old baily battered beer jug at \$30 , a pair o candlesticks, such as were the chief ornament of the old Dutch mantleplece before gas and candelabra had invaded the parlor, were taken up at \$300 Many other equally extravagant prices were paid; and, as the small pieces went singly, the lot was well divided here a spoon and there a fork, among the owners and the reverers of the name of Clarkson

THE EXILES.-Last evening the Portuguese exiles remaining in this City were to take steambout for Albany, en route Westward. They numbered about 120, and 40 of them are under 16 years of age. They intend to remain for a while at Chicago, until it can be satisfactorily ascertained whether suitable provision can be made for them at Springfield, Jackson and Waverly, Ill wh re the first detachment is to be located. They take the inland route, spending the first Sabbath in Buffalo. Several of the young men having for healty, durability or cheapness, at the one pice obtained lucrative positions in New York, as mechanics, prefer to remain here.
